EDUCATION

M.S. in Data Science

University of Texas at Austin

Austin, TX

May 2026

B.S. in Computational Biology (Data Science specialization)

University of California, Los Angeles

Los Angeles, CA

June 2024

WORK EXPERIENCE

Buyer/Planner

Supermicro

San Jose, CA

Mar 2026 – Present

- Directed the procurement lifecycle for 80+ PCBA SKUs by analyzing MRP data and material status, collaborated with buyers across 3+ global manufacturing hubs to expedite gating components and mitigate shortage risks.
- Developed an end-to-end supply chain dashboard spanning 2,250+ active SKUs, translating complex MRP data across 5 manufacturers into actionable metrics (e.g., run rates, sales forecasts, and open orders). Eliminated manual tracking by engineering KPIs for inventory health and aging POs, providing critical backorder action items to align procurement with sales.
- Co-work with Program Management and Sales teams to align production schedules with dynamic forecasts, leveraging real-time supply chain trends and data to adjust procurement strategies and guarantee on-time system shipments.

Program Lead/Math Teacher

Oakland Military Institute

Oakland, CA

Jul 2025 – Mar 2026

- Engineered a logistics framework for a 15-tutor cohort, utilizing Aeries SIS database queries and Excel to dynamically optimize schedules, room allocations, and program capacity to align with data-driven student performance metrics.
- Spearheaded data-driven instruction for 25 students, driving state test scores increases across 55% of students, utilized data visualizations and program KPIs to secure funding from School Board and former Governor Jerry Brown.

Graduate Researcher

UCSF Department of Physical Therapy

San Francisco, CA

Sep 2025 – Apr 2026

- Developed latent profile analysis and K-means clustering models, alongside supervised ML models, using demographic and clinical data to predict health outcomes and prioritize care for lower back pain patients.

IT Technician

UCLA Semel Institute

Los Angeles, CA

Nov 2022 – Feb 2024

- Supported 200+ users by upgrading computer hardware, processing RMAs, printer configuration, and IT requests, documenting network layouts. Utilized Airtable and batch scripts to automate hardware lifecycle tracking across 300+ offices, pitching refurbished solutions that drove IT profit, reduced e-waste, and saved \$10,000+ annually.

Computer Science Associate Instructor

Silicon Valley Education Foundation

Los Angeles, CA

Jun 2022 – Aug 2022

- Designed and led 10+ Python lessons covering recursion, control flow, data structures, and OOP concepts, utilizing interactive programming demos and open-ended challenges tailored to student interests.

Web Developer

UCLA Health

Los Angeles, CA

Jun 2021 – Aug 2021

- Maintained Drupal backend and executed SQL queries to ensure database integrity, developed 4+ site pages via HTML/CSS/JS to optimize data accessibility for 140+ residents and fellows.

TECHNICAL SKILLS

Programming: Python, SQL, R (Tidyverse), HTML, CSS, VBA, React.js

Other Skills: Machine Learning, NLP, Statistics, Experimental Design, Tableau, Git/GitHub, Excel, Data Visualization, SAP ERP, MRP, Project Management

Interests: Photography, Mechanical Keyboards, Cooking + Home Café, Teaching
